

Spec. of Sumersible UV Straight Tube

TYPE

ZW20D15Y(W)-Z436

Size of UV lamp

(Model)	ZW20D15Y(W)-Z436	Power	20W
Tube Length	436mm	Length	500mm
Pipe Diameter	23mm	Radiation Intensity)	72μw/cm <sup>2</sup>
Water Treatment Capacity	2m <sup>3</sup> /h		

Data of UV lamp

Work Life	13000h	Input Voltage	Ballast - 230VAC
Power Cord Length	190mm	UV Type	UVC 185+254nm/254nm
Working Ambient Temperature	-40~80°C	Time of Warranty	1 Year

Product Description

1	All models of all submersible straight tubes are equipped with high quality UVC lamps.
2	High purity quartz glass is used for waterproof glass sleeve and lamp tube, UVC transmittance is high.
3	Using high quality ballast for UVC lamp matching with UV lamp to ensure the efficiency and life of uv lamp.
4	Can be customized according to the size of customer demand.
5	It is suitable for aquaculture, sewage treatment and so on.
